- If we have sent you the option of choosing between different currencies, please ensure that the currency you choose matches the correct bank account currency.
- We only accept bank transfers. Many of our clients are finding that [transferwise](#) is a transparent, quick and cheap alternative to a traditional bank transfer.
- Make sure to reference the transfer with your surname, and that you cover the cost of all transfer and currency fees.
- For international transfers, please instruct your bank the total amount of the final currency the payment will be made in. To avoid inaccuracies in the transfer total, do not make the calculation yourself from your own currency.
